

Cert-In 2011 USER CONFERENCE

and

WinTRF Training Class

We are pleased to announce that the next USER CONFERENCE and Training class for the WINTRF Estimating and Time & Material Programs has been scheduled.

We will be covering:

- Review all the new Features added to the Estimating and Time & Material programs over the past year.
- Estimating using our new Version 9 interfaces to multiple Digital Takeoff Systems.
- Database management techniques using the Online Supply House Interfaces.
- Our new Vehicle management system and its integration with our Time & Material System.

In past sessions users have demonstrated techniques for creating powerful front-end sheets, advanced techniques for updating databases, and powerful estimating procedures.

This class will have a major portion of it dedicated to Installing, Interfacing and Using the Digital Screen Takeoff Systems. If you have been reading the News Reports we now interface with multiple Digital Screen Programs

If you have something that you would like to share be prepared to demonstrate it and we will include it. If you have something that you would like to see addressed and explained in depth let us know and we will include it.

The Class will be held on Thursday November 10, 2011 and Friday November 11, 2011 from 9:00am to 4:00pm at the Hyatt Place Hotel In Las Vegas, Nevada. Cert-In Software has reserved a block of rooms at the Hyatt Place Hotel.

The Hotel is centrally located across the street from the Hard Rock Hotel/Casino and University of Nevada, Las Vegas. Just a ½ mile from McCarran Airport, 1 mile from the Las Vegas Strip and the Convention Center.

The room rates Wednesday and Thursday are \$99.00 and include a breakfast buffet.

Reservations must be completed by October 30, 2011

The focus will be on the maintenance of the Estimating and Time and Material Programs. However, since we recently completed work on our version 9, we will spend as much time as is needed to demonstrate these new features. We will cover all the aspects of configuring, maintaining and adding to the various data files. Attendees should be familiar with the Estimating or Time and Material systems and should come prepared with a list of items that they want addressed. A notebook computer with the users system installed is recommended.

The cost of the class is \$400.00 per person exclusive of the room rates but now includes Breakfast & Lunch as well as the usual in class refreshments. If you choose not to stay at the Hyatt Place Hotel the cost of the class will be \$500.00 per person.

In order to reserve space in the class, check the applications that you are requesting below, and return

this form and we will send you the appropriate forms. The class application will require a minimum 50% deposit for the class. The hotel room reservation will require a completed credit card form to hold the room. We will reserve the rooms and return a confirmation number as soon as it is completed.
